As your surety, we are as interested as you in accurate progress reports on your construction work. The second page of this form is designed to help present such a report.

We ask that you take a moment to read these instructions before completing the work on hand schedule.

1. All projects should be listed: Bonded and unbonded, including cost plus.
2. Contract Price should include APPROVED change orders only. Claims and disputed items should not be included.
3. Costs should be entered on a basis consistent with the financial statement (P & L) allocation EXCLUDING general and administrative overhead.
4. Billed to Date and Cost to Complete should be as of a concurrent date. It should be consistent with the treatment in the financial statement.
5. Estimated Cost to Complete. This figure should be an accurate estimate of the cost remaining at the time this report is completed. It would reflect any developments which occurred after the bid date which would effect the final cost. You should NOT just subtract the cost to date from the original estimated cost.

Thank you,
